

CURRENT LIST of MEDICAL LITERATURE

Vol. 11

August 9, 1946

No. 5

SUBJECT GROUPS ACCORDING TO JOURNALS

- | | |
|---------------------------------------|---|
| * 1. Anatomy; Histology | * 26. infectious Diseases; Epidemiology |
| 2. Anthropology; Ethnology | * 27. Medicine |
| 3. Archeology; Paleontology | 28. Metabolism |
| * 4. Aviation Medicine | * 29. Military and Naval Medicine |
| * 5. Bacteriology; Parasitology | * 30. Miscellaneous |
| 6. Biology; Embryology | * 31. Neurology; Psychiatry |
| * 7. Bone; Joint; Extremities; Muscle | * 32. Nursing |
| * 8. Cancerology | 33. Ophthalmology |
| * 9. Cardiovascular System | * 34. Otorhinolaryngology; Phoniatry |
| 10. Chemistry; Physics | 35. Pathology |
| * 11. Dentistry; Stomatology | * 36. Pediatrics; Child Welfare |
| * 12. Dermatology | * 37. Pharmacology; Pharmacy |
| * 13. Diagnosis; Clinical Methods | 38. Physiology |
| * 14. Dietetics; Foods; Nutrition | * 39. Psychology; Mental Hygiene |
| 15. Digestive System | * 40. Public Health; Sanitation |
| 16. Endocrinology | * 41. Radiology; Phototherapy |
| * 17. Forensic Medicine; Toxicology | 42. Respiratory System |
| * 18. Genetics; Eugenics | * 43. Surgery; Traumatology |
| * 19. Gynecology; Obstetrics | * 44. Therapeutics |
| 20. Hematology | * 45. Tropical Medicine |
| 21. History; Biography; Bibliography | 46. Tuberculosis |
| * 22. Homeopathy; Osteopathy, etc. | * 47. Urology |
| * 23. Hospitals | * 48. Venereal Diseases; Sexology |
| 24. Immunology; Serology | * 49. Veterinary Medicine |
| * 25. Industrial Hygiene; Sociology | * 50. Zoology |

THE ARMY MEDICAL LIBRARY
Washington, D. C.

The CURRENT LIST OF MEDICAL LITERATURE is for sale by the Superintendent of Documents U. S. Government Printing Office, Washington 25, D.C., \$3.00 per year (\$3.75 foreign) 10 cents per single copy. All communications regarding subscriptions should be addressed to the Superintendent of Documents at the above address.

Published weekly by the Army Medical Library 7th Street & Independence Ave., S. W., Washington 25, D.C., as an intraservice publication of the War Department. Lists with complete reference, all articles of medical interest contained in current journals received. Subject-index provided monthly. Exchange invited.

1. Anatomy; Histology

Acta anat., Basel, 1945-46, 1: No. 3.

- CHAMPY, C., COUJARD, R., & COUJARD-CHAMPY, C. L'innervation sympathique des glandes. 233-83.
SCHLEGEL, J.U. Arteriovenous anastomoses in the endometrium in man. 284-325, pl.
JOEL, C.A. Degeneration und Regeneration des Hodens unter besonderer Berücksichtigung der Wirkung gynäkogener und androgener Wirkstoffe auf männliche Gonaden reifer Albino-Ratten. 326-54.

Am. J. Anat., 1946, 78: (May)

- WISLOCKI, G.B., DEANE, H.W., & DEMPSEY, E.W. The histochemistry of the rodent's placenta. 281-345, incl. 12 pl.
DAWSON, A.B. Some evidences of specific secretory activity of the anterior pituitary gland of the cat. 347-409, incl. 4 pl.
MORGAN, C.F. Sexual rhythms in the reproductive tract of the adult female opossum and effects of hormonal treatments. 411-63, incl. 5 pl.

Anat. Rec., 1946, 95: (May)

- KELSAI, M.A. Anomalies in the small intestine and cecum of inbred strains of mice. 1-5, incl. pl.
SUNDERLAND, S. The innervation of the first dorsal interosseous muscle of the hand. 7-10.
HARTMANN, J.F., FAIN, W.R., & WOLFE, J.M. A cytological study of the anterior hypophysis of the dog with particular reference to the presence of a fourth cell type. 11-27, incl. pl.
DAWSON, A.B. The postpartum history of the corpus luteum of the cat. 29-51, incl. 3 pl.
GREGG, R.E. An arterial anomaly in the fetal pig. 53-65, incl. pl.
OPPENHEIMER, J.M. A case of atypical twinning in *Fundulus heteroclitus*. 67-71.

4. Aviation Medicine

Air Surgeon's Bull., 1945, 2: (Dec.)

- LIIMAN, B.I., & COHN, C. Effect of radar emanations on the hematopoietic system. 448.
POTENCIANO, P.G. Practice of medicine during the Japanese occupation of the Philippine Islands. 450.
LAWRENCE, J.H., & TOBIAS, C.A. Is CO oxidized to CO₂ in the human body. 452.
TILLISCH, J.H. The flight surgeon and commercial aviation. 453.
WILSON, K.G., & HELMHOLTZ, H.F., Jr. Safety advantage of rearward seating in passenger aircraft. 455.

5. Bacteriology; Parasitology

Bull. Entom. Res., Lond., 1946, 37: (May)

- MUSGRAVE, A.J. Tests on clothing impregnated with DDT as an anti-louse measure. 43-56.
RIBBANDS, C.R. The use of DDT as a mosquito larvicide; flowing water. 105-12.
RAHMAN, K.A., & GURCHARN SINGH SOHI. Mercury as a preventive against stored grain pests. 131-41.
GOLDING, F.D. A new method of trapping flies. 143-54.

J. Bact., Balt., 1946, 51: (May)

- WEAVER, R.H., ARNOLD, W.M., Jr., & HANNAN, J. The development of quick microtechniques for the identification of cultures. 565.
SHERWOOD, M.B. Applicability of modifications of the thin filter paper disc method to the assay of enzymes. 566.
JONES, D., & SCHATZ, A. Methods of study of antiphage agents produced by microorganisms. 566.
GERHARDT, P., & GEE, L.L. Aeration in the cultivation of *Brucella suis*. 566.
WICKERHAM, L.J. A critical evaluation of the nitrogen assimilation tests as commonly used in the classification of the yeasts. 567.
CURRAN, H.R., & EVANS, F.R. The viability of heat-activatable spores in distilled water or glucose solution as influenced by prestorage or poststorage heating. 567.
MAYER, R.L., & ROBERT, M. Production of vitamin B₁₂ by *Mycobacterium smegmatis*. 568.
HANSON, A.M., & RODGERS, N.E. Influence of iron concentration and attenuation on the metabolism of *Clostridium acetobutylicum*. 568.
REYES-TEODORO, J., & MICKELSON, M.N. Recovery of biotin from cultures of acetone, butyl alcohol bacteria. 569.
RODGERS, N.E., HENIKA, R.H., & HANSON, A.M. Relations of strain variation and culture history to the synthesis of riboflavin by *Clostridium acetobutylicum* in whey. 569.
STOKES, J.L., & GUNNESS, M. The amino acid composition of microorganisms. 570.
BUEHLER, H.J., BORNOR, D.H. [et al.] The amino acid composition of crystalline botulinus (type A) toxin. 571.
ROESSLER, W.G., & BREWER, C.R. Nutritional studies with *Clostridium botulinum*, toxin types A and B. 571.
ROESSLER, W.G., HERBST, E.J. [et al.] The nutrition of *Coccidioides immitis* in submerged culture. 572.
BREWER, C.R., McCULLOUGH, W.G. [et al.] The nutritional requirements of *Bacillus anthracis*. 572.
ENGLBY, F.B., & SNYDER, T.L. Plating media requirements for certain strains of *Bacterium tularensis*. 573.
HITCHNER, E.R. The reduction of trimethylamine oxide by representatives of the genus *Pseudomonas*. 573.
MICKELSON, M.N., & SHIDEMAN, F.E. The oxidation of glycerol by *Escherichia freundii*. 574.
KETCHUM, H.M., & CONKLIN, R.L. A simplified medium for the microbiological assay for pantothenic acid. 574.
ROGOZA, M. Significance in nutritional research of correct identification of *Lactobacillus casei*, *L. delbrueckii*, and *L. bulgaricus*.

- ous. 575.
- HUTNER, S.H. Unidentified trace element requirements of photosynthetic purple bacteria. 575.
- GROSS, N.H., & WERKMAN, C.H. Fixation of heavy carbon acetaldehyde by active juices. 576.
- UMBREIT, W.W., O'KANE, D.J., & GUNSALUS, I.C. Mechanism of pyridoxal phosphate function in bacterial transamination. 576.
- SMITH, N.R., & WENZEL, M.E. Factors influencing the anaerobic production of gas by *Bacillus subtilis*. 577.
- MOCLUNG, L.S., & TOABE, R. Rapid identification of certain clostridia by plate cultures on medium containing egg yolk. 577.
- GARFINKEL, P.L. Relationships of *Proshigella* dispar to other *Proshigella* and *Shigella* species. 578.
- FULTON, M., & CHILTON, M.L. The classification of paraecolon bacilli isolated from man. 578.
- CHILTON, M.L., & FULTON, M. A study of adonitol-fermenting paraecolon bacilli. 578.
- ORDAL, E.J. Studies on myxobacteria. 579.
- BRAUN, W. Bacterial variation, population dynamics, and selective environments. 579.
- KLIMEK, J.W., CAVALLITO, C.J., & BAILEY, J.H. Induced resistance of *Staphylococcus aureus* to antibiotics. 580.
- MILLER, C.P., & BOHNHOFF, M. The development of penicillin resistance by meningococcus in vivo. 580.
- KLEIN, M., & KIMMELMAN, L.J. Development of streptomycin resistance of the shigellae. 581.
- BONDI, A.J.R., & DIETZ, C.G. The susceptibility of penicillinase-producing bacteria to penicillin. 581.
- CANNON, P.R. Immunologic aspects of protein metabolism. 582.
- WYCKOFF, S.W.G. Some applications of physical methods to problems of bacteriology. 582.
- EIGELSHAUGH, H.T., CHAMBERS, L.A., & CORRELL, L.L. Electron microscopy of *Bacterium tularensis*. 582.
- LOFGREN, R., & SOULE, M.H. The structure of *Spirochaeta novyi* as revealed by the electron microscope. 583.
- SMITH, W.E., HILLIER, J., & MUDD, S. Electron microscope studies of organisms of the pleuropneumonia group. 583.
- FOSTER, R.A.C., & ANTAS, L.L. A comparison of electron micrographs with photomicrographs of young bacterial cultures stained to demonstrate desoxyribonucleic acid. 584.
- BARTHOLOMEW, J.W. Gram-positive characteristics of the *Neisseria*. 584.
- DIERNS, L. Reproductive processes in *Proteus* cultures. 585.
- RICHARDS, O.W. The size of living bacteria, measured with the phase microscope. 585.
- PALMER, J.L. Nuclear staining of *Escherichia coli*. 586.
- HORWOOD, M.P. Is rinse water at 170 F or higher essential to produce sterile eating and drinking utensils? 586.
- SPECK, M.L., & MYERS, R.P. The viability of dried *Lactobacillus bulgaricus* cultures as affected by the temperature of the reconstituting fluid. 587.
- UBERK, I.J., & REID, J.J. A method for the production of antiserum specific for Lancefield group D streptococci. 587.
- WINTER, C.E., & SANDHOLZER, L.A. Isolation of enterococci from natural sources. 588.
- QUIMBY, F.H., SANDHOLZER, L.A. [et al.] Further studies of a more rapid method for detecting coliform bacteria in natural waters and shellfish. 588.
- HUNGATE, R.E. The cellulose-decomposing bacteria in the rumen of cattle. 589.
- BUCHSINDER, L., & FERTIG, J.W. A survey of the coliform status and suggested standards for coliform control of pasteurized milk in a large city. 589.
- TITTLER, R.P., GEIB, D.S. [et al.] The effects of quality and pasteurization of milk on the bacterial flora and quality of cheddar cheese. 590.
- KELNER, A. A survey of antibiotic production by representative aspergilli, penicillia, and other fungi from a culture collection. 590.
- JOHNSON, E.A., & BURDON, K.L. Rumycin, a new antibiotic active against pathogenic fungi and higher bacteria, including bacilli of tuberculosis and diphtheria. 591.
- KELNER, A., KOCHOLATY, W. [et al.] Two antibiotics produced by *Actinomyces* isolated from soil. 591.
- SALLE, A.J., & JANN, G.J. The effect of subtilin in the treatment of experimental infections in animals. 592.
- BAILEY, J.H., & CAVALLITO, C.J. Reversal of antibacterial action. 592.
- FUETZGER, B., & GRUBB, T.C. The action of clavacin, a clavacin isomere, and related compounds on tetanus toxin. 592.
- THOMPSON, R., & SHIBUYA, M. The inhibitory action of saliva on the diphtheria bacillus; the antibiotic effect of salivary streptococci. 593.
- LIPMAN, M.O., COSS, J.A., & BOOTS, R.H. Changes in the bacterial flora of the throat and intestinal tract during prolonged oral administration of penicillin. 594.
- HUELSEBUSCH, J.B., GIBBY, I.W., & FOTER, M.J. Effect of natural and synthetic rubbers upon the stability of penicillin and streptomycin solutions. 594.
- BALANCHURA, B., STEWART, F.D. [et al.] Submerged culture of molds for amylase production. 594.
- VAN LAHEN, J.M., & LEMENSE, E.H. The production of fungal amylases in submerged culture and their use in the production of industrial alcohol. 595.
- WILDER, C.J., & STARK, W.H. Bacteriophage in the 2,3-butyleneglycol fermentation. 596.
- RAKE, G., & DONOVICK, R. Studies on the nutritional requirements of *Actinomyces griseus* for the formation of streptomycin. 596.
- KEMPF, J.E., & SAYLES, P. The influence of the rate of aeration on oxidation reduction potentials and streptomycin production by *Actinomyces griseus*. 596.
- LIGGETT, R.W. The use of corn steeping liquor in microbiological research. 597.
- FOSTER, J.W., WOODHUFF, H.B. [et al.] Microbiological aspects of penicillin; cottonseed meal as a substitute for corn steep liquor in penicillin production. 597.
- JENNISON, M.W., & IRVINE, J.W., jr. The effect of beta radiation on the production of penicillin. 598.
- STONE, R.W., PATTERSON, H.T., & FARRELL, M.A. Chemical adjuvants affecting penicillin yields on synthetic media. 598.
- HINSHAW, W.R., & MCNEIL, E. Studies on a spirochete found in the blood of sick turkeys. 599.
- HOLTMAN, D.F., & FISHER, G. Sulfadiazine in the control of *Shigella gallinarum* infections. 599.
- ORCUTT, F.S., & WHITMAN, A.L. Commercial inoculation of legume seed. 599.
- STONE, R.W. Fermentation of organic acids by marine mud cultures. 600.
- ROSENFELD, W.D., & ZOBELL, C.E. Lipid transformations by anaerobic bacteria. 600.
- BEJNA, J., & HEDRICK, L.R. Effect of growth of microorganisms upon formation of peroxides, free fatty acids, aldehydes, and ketones from oils with different iodine numbers. 601.
- WYSS, O. The bacteriostatic action of short chain fat acids. 601.
- QUISNO, R., GIBBY, I.W., & FOTER, M.J. The effect of agar upon the germicidal potency of the quaternary ammonium salts. 602.
- LEWIN, I., & JOHNSON, F.H. The relation of pH

- and quinine to growth and disinfection rates of *Escherichia coli*. 602.
- JOHNSON, F.H. & LEWIN, I. The rate of growth and disinfection of *Escherichia coli* in relation to temperature, hydrostatic pressure, and quinine. 602.
- SPAUDLING, E.H. & BONDI, A., Jr. The evaluation of germicidal agents by an infection-prevention toxicity method. 603.
- PIERCE, M.E. & TILDEN, E.B. Evaluation of disinfectants by tests in living animals. 603.
